

Dr Jean-Frédéric Mall is an accredited and former senior physician in the Division Old Age Psychiatry at the University Hospital of Lausanne, Switzerland.

Having specialised in psychiatry and psychotherapy for adults and elderly, he is also in charge of the electroconvulsive therapy unit of the department of psychiatry at the Lausanne University Hospital, and of an inpatient unit treating affective and psychotic disorders in the elderly.

Dr Mall was trained in Lausanne and Paris. He follows an evidence-based medical approach, focused on optimised and personalised prescription for biological treatments, pharmacological or non-pharmacological, in particular neurostimulation and neuromodulation.

He has followed intensive training in electroconvulsive therapy at the Division of Brain Stimulation & Therapeutic Modulation of Columbia University, New York, and training on transcranial magnetic stimulation at the Berenson-Allen Center for Noninvasive Brain Stimulation, Harvard Medical School.

He is a member of the following medical societies:

- The Swiss Society of Interventional Psychiatry (SSIP)
- Swiss Society of Biological Psychiatry
- International Society for ECT and Neurostimulation (ISEN)
- Clinical TMS Society
- Swiss Society of Psychiatry and Psychotherapy of the Elderly
- Swiss Society for Geriatric Medicine
- Swiss Medical Federation (FMH)
- Vereins der Leitenden Spitalärzte der Schweiz (VLSS)
